

Grading policy of the subject Introduction to Machine Learning- January-May-2022

1. There will be Continuous assessments through topic wise assignments and their evaluations.
2. Assignments will have deadlines and students should strictly follow the deadlines.
3. In Project Component you may make a group of three students. In C1 you have to submit a two page report, in c2 a 4 page report and finally a 6 page report in ICML conference formatting.

Note: You all have to submit a report on Latex only, so you must learn and use overleaf for this purpose. Plagiarism will be checked in every assignment and report. Do not share your assignment to anyone.
